PROFESSIONAL SUMMARY

Senior Full-Stack Engineer with 15+ years designing and delivering scalable web platforms across sports media, healthcare, telecom, loyalty, and real estate. Expert in TypeScript, Node.js/NestJS, Angular/React/Next.js, and PostgreSQL, with hands-on cloud CI/CD and production ownership. Delivered high-traffic systems serving millions of users. Experienced in Agentic AI and LLM integration, architectural leadership, code reviews, and mentoring. Known for measurable impact on performance, delivery speed, and reliability.

CORE SKILLS

Frontend: Angular (v1–v21), React, Next.js 15, Ionic, Stencil (Web Components), TypeScript, HTML5, SCSS
Backend: Node.js, NestJS, Express, FastAPI, PHP (Symfony, Laravel), REST API design, GraphQL, WebSockets, OpenAPI/Swagger
AI / Agentic: CrewAI multi-agent, OpenAI API, Google Gemini, Claude, prompt engineering, tool calling, LLM workflow orchestration
Cloud / DevOps: Docker, Docker Compose, GitHub Actions, Azure DevOps, AWS Amplify, CI/CD pipelines, Linux
Databases & ORM: PostgreSQL, MySQL, MongoDB, Redis, TypeORM, Prisma
Testing: Jest, Vitest, Playwright, Cypress, PHPUnit, Testing Library
Security: OAuth2, JWT, OWASP Top 10, CSRF, XSS prevention, secure sessions, secrets management
Performance: Core Web Vitals, Lighthouse, code splitting, lazy loading, caching, CDN
Tools: Git, Jira, Confluence, Postman, Bash

PROFESSIONAL EXPERIENCE

Independent Senior Software Engineer / Consultant

Nis, Serbia | September 2025 – Present

- Delivered a full-stack real estate platform end-to-end (NestJS + Next.js 15, Turborepo monorepo), owning architecture, API design, CI/CD, E2E testing, and production deployment.
- Developing "Objekta," a real estate management platform built with Python/FastAPI, with full ownership across the delivery lifecycle.

Union Studio — Senior Software Engineer

Serbia / United States | April 2025 – August 2025

- Led frontend development for multiple health-support web and mobile applications (Android/iOS) using Angular v19+ and Ionic.
- Delivered responsive, accessible cross-platform UI components, reducing reported UX issues by ~30% during QA cycles.
- Integrated Azure DevOps CI/CD pipelines (build, test, deploy), reducing deployment effort and increasing release cadence.
- Applied SOLID principles and component-driven architecture across multiple product teams.

Better Collective — Senior Software Engineer

Denmark / Serbia | November 2018 – November 2024

- Designed and shipped AI-powered content generation tools using CrewAI multi-agent framework and LLM APIs, reducing manual editorial workload by ~60% on target workflows.
- Full-stack revamp of Vegas Insider (vegasinsider.com), a top-tier US sports-betting platform with millions of monthly active users; owned PHP/Symfony backend and TypeScript Web Components frontend architecture.
- Drove architectural and technical design decisions across a team of 8+ engineers; conducted code reviews and maintained engineering standards.
- Mentored 3+ junior developers and guided 2 internship programs to successful completion.
- Integrated GraphQL APIs and optimized complex PostgreSQL queries, improving performance up to 2x on data-intensive

pages.

- Introduced automated testing (Jest, Playwright), achieving >80% coverage on critical user flows.

Horisen AG — Full-Stack Web Developer

Switzerland / Serbia | 2015 – 2018

- Built and maintained HORISEN-pro, an enterprise SaaS platform used by telecom and marketing clients across Europe.
- Developed the iCard loyalty program and SMS newsletter marketing system, serving thousands of end users.
- Delivered white-label online gaming applications for clients including Orange.pl and Ringier Axel Springer.
- Implemented security hardening (XSS prevention, CSRF protection, secure session management) across front-end and back-end applications.

Olymp Real-estates — Co-founder & Full-Stack Web Developer

Nis, Serbia | 2009 – 2015

- Co-founded and built a real estate management portal from the ground up, owning architecture, development, deployment, and maintenance.
- Managed SEO, performance optimization, and digital marketing campaigns.

Pixel Graphics — Owner & Web Developer

Nis, Serbia | 2005 – 2009

- Provided web development, graphic design, and IT services to local businesses

PROJECTS & OPEN SOURCE

Real Estate API Platform — github.com/aleksicdacha/RealEstatesAPI-NestJS

Full-stack Turborepo monorepo: NestJS REST API + Next.js 15 admin panel and public site. Features TypeORM custom repositories, Google Gemini AI chatbot (multilingual), JWT auth, RBAC, PostgreSQL, Redis, Docker Compose, GitHub Actions CI/CD, Playwright E2E.

Tech: TypeScript, NestJS, Next.js 15, PostgreSQL, TypeORM, Redis, Docker, Playwright

EDUCATION

Electro-Medical Equipment — School of Electrical Engineering 'Mija Stanimirovic', Nis, Serbia
